9th CONGRESS OF THE EUROPEAN SOCIETY OF CONTRACEPTION

IMPROVING LIFE QUALITY
THROUGH CONTRACEPTION AND
REPRODUCTIVE HEALTH CARE

3-6 MAY 2006 / TURKEY

Dear Colleagues,

'Improving Life Quality Through Contraception and Reproductive Health Care' will be the main topic of the 9th Congress of the European Society of Contraception. We believe this meeting will provide the participants with a wonderful opportunity to exchange ideas, to learn about new research and to discuss and share views on all aspects of contraception and reproductive health.

This congress will follow the prestigious tradition of the previous meetings of the Society, involving participants from Europe and all continents.

The city of Istanbul is a bridge where East meets West and where Asia meets Europe. The city has been bringing continents, cultures, seas and people together for centuries. Istanbul being the capital of three successive empires of Roman, Byzantine and Ottoman, is a mixture of the old and new, the modern and the traditional. We hope, besides attending the scientific program, you will also find time to enjoy the atmosphere and culture of Istanbul.

We look forward to meeting you in Istanbul and having a new get together on the occasion of the 9th Congress of the European Society of Contraception

Sincerely Yours,

S. S. OZALP
President of the 9th Congress of the European Society of Contraception

D. CIBULA
President of the European Society of Contraception

Turkey, at the junction of Asia and Europe, a huge peninsula surrounded by four seas, a unique country where one can experience four seasons on the same day

Birth place of many civilizations, hosting more than 20 ancient civilizations with an inheritance of a history of 10 000 years

Turkey, one of the most ancient inhabited lands of combining cultural richness with natural beauty and warm hospitality

"There, God and mankind, nature and art had created such a magnificent land that it embraces Europe and Asia ..."
